

We are a club for  
**businessmen and  
entrepreneurs**, with more  
than 4 years in the industry.  
**By educating and teaching**  
about cryptoeconomy we give  
our members a **business  
opportunity** with financial  
tools that allows them to  
generate cryptocurrencies or  
digital assets every day.

# What is a cryptocurrency?

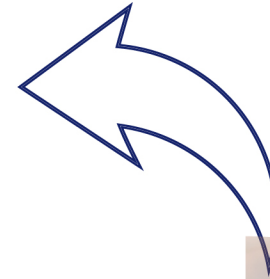

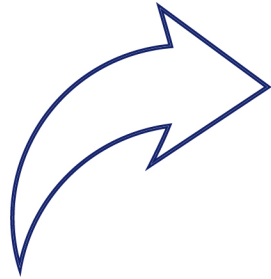

It's a digital asset encrypted and decentralized used for the exchange of **goods, services or currencies** using a public accounting system called Blockchain which is:

**SAFE  
INTEGRAL  
TRANSPARENT**

# FINANCIAL CENTRALIZATION

It's a system **controlled**  
by a **third party**, either a  
person, a bank or an  
institution.

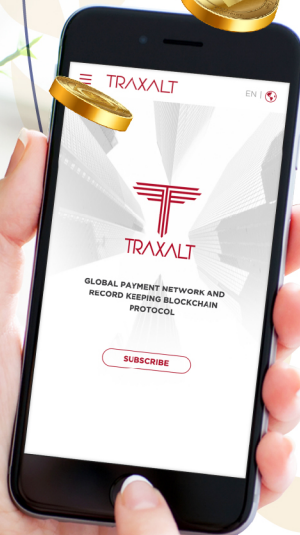

# FINANCIAL DECENTRALIZATION

It's a financial system where you can  
make transactions **peer to peer**  
without a third party involved.

Safe

Anonymous

Fast

**Let's talk about  
technology and the  
purpose of some  
cryptocurrencies.**

# BLOCKCHAIN

It's a **public accounting book** that registers every transaction made **peer to peer** and publish them in real time.

Unlike a database, its technology is **incorruptible**, because you can only **insert and verify information** while maintaining user privacy.

This makes this system a **guarantee of transparency** in the operation.

## 1st Generation

- Transactions per sec: 3-7
- 1 block is mined every 10 mins.

**Bitcoin** is the first **digital decentralized** cryptocurrency in the world.

Created on 2009, it has the first public **Blockchain system**, known today as the **first generation blockchain**.

**Ethereum** it's a  
cryptocurrency and one of the  
first protocols created for  
**smart contracts.**

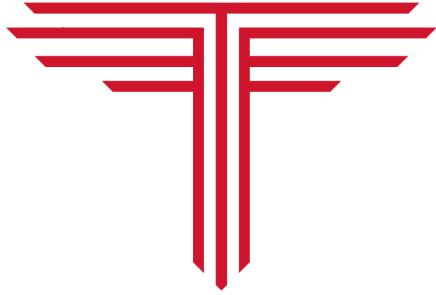

Created on 2014, it has a public  
**Blockchain** known today as  
the **second generation**  
blockchain.

## **2nd Generation**

- Transactions per sec: 25.
- Smart Contracts
- One block mined every 14 sec.

## 3rd Generation with Stellar

- Transactions per sec: 1000-2000
- Smart Contracts
- One block mined every 6 seconds.

**Traxalt** (TXT) it's a digital currency protocol designed to create **micro services and multiple tools** to help companies have data processing and large-scale payments in **private and public Blockchain**.

Created in 2018, it has **third generation** Blockchain.
